CERTIFICATE OF
VULNERABILITY ASSESSMENT & PENETRATION TESTING

Based on the information provided by PT Groww Consulting, Entersoft Pte Ltd has performed Vulnerability Assessment & Penetration Testing on the following:

EKTA Web Applications:
- https://ektanft.io
- https://partner.ektanft.io
- https://asahsaiashhadmin.ektanft.io

EKTA Web Services:
- https://api.ektanft.io/
- https://devrealtime.ektanft.io

and determined them to be secure and compliant with industry and OWASP Standards.

Entersoft recognises PT Groww Consulting for its efforts to reduce security threats and maintain rigorous security standards. In order to maintain this certificate, any changes or new additions made to the application must pass continuous Vulnerability Assessments and Penetration Tests.

Entersoft confirms that all vulnerabilities identified as a result of the tests performed in July 2023 have been remediated by PT Groww Consulting.

Scan Passing Month: July 2023
